

Brian Kipngetich

AI Data Reviewer & UX Research Specialist

kipngetichbrian204@gmail.com | Nairobi, Kenya | [linkedin.com/in/brian-kipngetich](https://www.linkedin.com/in/brian-kipngetich)

PROFESSIONAL SUMMARY

Detail-oriented software engineer and UX researcher with over five years of hands-on experience evaluating digital interfaces, annotating complex data, and translating user behavior into actionable insights. Holds a Master's degree in Software Engineering from the University of Nairobi and a Bachelor's degree in Software Engineering from Kirinyaga University. Adept at navigating diverse software environments — from admin dashboards and CRM platforms to modern web applications — with a sharp eye for distinguishing observable evidence from assumptions. Comfortable working independently in remote settings and collaborating with globally distributed teams.

WORK EXPERIENCE

UX Research & Data Review Specialist

TechBridge Solutions Ltd | Nairobi, Kenya | 2021 – Present

- Reviewed and annotated thousands of software screenshots across CRM tools, admin panels, SaaS dashboards, and e-commerce platforms, accurately identifying UI elements and user workflow patterns.
- Evaluated AI-generated outputs against visible screen evidence, flagging inconsistencies and documenting clear, evidence-based assessments for model improvement cycles.
- Collaborated closely with product and engineering teams to refine annotation guidelines, improving reviewer consistency by an estimated 30% over two review cycles.
- Delivered structured feedback reports on data quality to senior stakeholders, contributing directly to product iteration and AI training pipeline refinements.
- Managed personal task queues across multiple concurrent projects, consistently meeting tight turnaround deadlines in a fully remote setup.

Product Operations Analyst

Innotech Digital | Nairobi, Kenya | 2019 – 2021

- Conducted usability evaluations and heuristic reviews of web and mobile applications, documenting findings in detailed written reports for design and development teams.
- Performed structured data annotation tasks for an early-stage AI startup, labeling interface interactions, user flows, and form behaviors across 10+ distinct software environments.
- Developed and maintained internal quality checklists and review templates to ensure consistency across a team of five analysts.
- Served as the primary liaison between QA testers and UX designers, translating technical findings into plain-language summaries for non-technical stakeholders.

Junior Software Engineer / Technical Support

Kirinyaga County ICT Department | Kirinyaga, Kenya | 2018 – 2019

- Provided technical support for government web portals and internal management systems, troubleshooting UI and backend issues reported by county staff.
- Documented user-reported interface problems with structured write-ups, enabling faster resolution by the development team.

- Assisted in the rollout and user onboarding of two internal digital tools, gathering feedback and preparing post-launch usability summaries.

EDUCATION

Master of Science – Software Engineering

University of Nairobi | Graduated 2020

Bachelor of Science – Software Engineering

Kirinyaga University | Graduated 2018

SKILLS

- | | | |
|----------------------------------|---------------------------------|--------------------------------|
| • Screenshot & UI Analysis | • Evidence-based Assessment | • Data Annotation & Labeling |
| • UX Research & Heuristic Review | • Technical Writing & Reporting | • Remote Collaboration |
| • CRM & Admin Panel Navigation | • QA Testing Methodologies | • Structured Task Management |
| • JIRA / Trello / Notion | • Figma / Miro | • Google Workspace / MS Office |

CERTIFICATIONS & TRAINING

- Google UX Design Certificate – Coursera, 2021
- Data Annotation Fundamentals – Scale AI Training Program, 2022
- Agile & Scrum Fundamentals – Scrum Alliance, 2020
